

31 October 1963

MEMORANDUM FOR: Assistant for Administration

ATTENTION :

25X1

THROUGH :

Assistant for Plans and Development

SUBJECT :

Environmental Requirements for Room L11
(Main Conference Room)

1. This request supersedes that of memorandum dated 8 October 1963.
2. It has been definitely established that Room L11 (Main Conference Room) will be available for the feasibility demonstration of the Multiple Image Correlator for a period of three weeks.
3. [] was sure that the 10 and 15 ampere, 115 volt AC, 60 cycle, single phase circuits were available in this room so that electrical requirements could be satisfied.
4. The need for subdued lighting would be solved by the installation of portable floor lamps which will be adequate for this purpose.
5. The dimensions of the door frame are: Width 39 inches, Height 81 3/8 inches. In a conversation with [] the width of the instrument is 36 inches and the height was approximately 72 inches. The final overall dimensions, however, will have to be forwarded to NPIC upon fabrication of the instrument.
6. The only problem that may be encountered is that of the capacity of the air conditioning in this room. [] stated that he would check into this and provide the 72° + 2° F requirement if possible. Final word has not been received as of this date. All other requirements have been met for preparation of the room for our use.
